INTERNSHIP/EXPERIENCE

Front-end development intern

STIGE

May 2021-July 2021

- Get trained, work on live projects and learn how to build websites.
- Worked on one project with other web developers.
- created 3+ projects using JavaScript
- Created 5+ static websites using HTML and CSS

PROJECTS

ECOMMERCE -WEBSITE [Project Link](#)

- In this project I have used javaScript to fetch API from the backend. It is a functioning website that allows users to search products and be able to delete products.
- **Technology used:** HTML, CSS, JavaScript..

CODING-COMRADES [Project Link](#)

- A Group project of front-end websites. It is a clone of many websites such as Cred, Hotstar,Apple TV and Netflix, with self improvement .
- **Technology used:** HTML, CSS, JavaScript.

QUIZIFY [Project Link](#)

- I developed Quizify, an interactive web-based quiz application, as a personal project to showcase my programming skills and passion for web development. Quizify allows users to take quizz, receive immediate feedback on their performance, and view their scores.
- **Technology used:** JavaScript.

PROFESSIONAL EXPERIENCE

- Effective Knowledge and understanding of HTML, CSS and JavaScript.
- Efficient in developing Responsive Websites with the help of media query
- Efficient knowledge in JavaScript Created many logics using JavaScript and React.js.
- Code Written by me is well maintained, commented and proper indentation is also done so that if further changes are needed then it is done very easily.
- Solved 500+ problems on various platforms
- Global rank 1901 out of 11,000+ participants in AccioWars Coding Contest.
